

Introductory Video

1	<p>[Title Screen]</p> <p>Protecting Our Nation Through Classification Marking</p>	Music
2		As an employee of APHIS, you have been identified
3		as a person who may work with classified documents
4		that involve national security information.

5	 A close-up photograph of a person's hands in a grey suit jacket writing on a white document with a pen. The document is on a white surface. A 'Thinkstock' watermark is visible in the center.	This course will show you how to properly conduct derivative classification
6	 A photograph of a wooden desk with a computer keyboard, mouse, and a document. The document has a red stamp that says 'TOP SECRET'. A 'Thinkstock' watermark is visible in the center.	and correctly mark classified documents.
7	 A photograph of a white document with a red stamp that says 'CONFIDENTIAL' inside a tan folder. A 'Thinkstock' watermark is visible in the center.	Properly marked documents protect our Nation
8	 A photograph of two business people in dark suits shaking hands in front of a silver car. One person is holding a white document. A 'Thinkstock' watermark is visible in the center.	and allow for safe sharing of information.

9		Improperly marked documents can lead to confusion
10		and promote miscommunication.
11		Mismarked documents can lead to accidental release of national security information
12		that could be exploited by our adversaries.

13		The markings you apply to a document created from multiple sources
14		must be done correctly to protect national security information.
15		Proper marking and safe sharing practices protect national security information
16		and allow for collaborative partnership across government.
