

## Notarized Processing Method Form

(APHIS Approval Number: \_\_\_\_\_)

This serves to inform officials of the United States Department of Agriculture's Animal and Plant Health Inspection Service that Porky's Fright  
(Facility's name), located at 6000 Pig By-Products Lane, Richmond, Texas 44444

(Facility's street address, including City, State, and Zip Code), handles for export to the EU: (check all that apply):

### I. Species of origin

ruminant origin blood or blood products (specify species): bovine;

porcine origin blood or blood products;

avian origin blood or blood products;

other species of blood products (specify species): \_\_\_\_\_.

### II. Disease freedom or treatment

**EITHER** the products are derived from areas free of the following diseases:

a. ruminant origin blood or blood products from the following areas are free of foot-and-mouth disease, vesicular stomatitis, rinderpest, peste des petits ruminants, Rift Valley fever, and bluetongue for at least 12 months (list country of origin: \_\_\_\_\_);

b. porcine origin blood or blood products from the following areas free of foot-and-mouth disease, swine vesicular disease, classical swine fever, and African swine fever (list country of origin: USA \_\_\_\_\_);

c. avian materials from the following areas that have been free of exotic Newcastle disease and highly pathogenic avian influenza for the last 12 months: (list country/states of origin: \_\_\_\_\_):

**AND / OR**

d. Ruminant origin items are from regions not free of bluetongue and/or vesicular stomatitis but will only be exported for technical purposes, including pharmaceuticals, in vitro diagnosis, and laboratory reagents, and **will be exported directly to the following EU approved plants for further processing:**

Technical Solutions, Dublin, Ireland, 548905

**AND/ OR**

e. the products for export to the EU have been treated with the below noted parameters (check appropriate selection or sections below), and the processing facility has in place a self-inspection program with the critical limits referenced (check all that apply):

**Initials: J.P. Page 1 of 2**

<b><u>Ruminant Blood or Blood Fractions</u></b>			
<b>Processing method (check one of the below)</b>			<b>Critical limits</b>
X	Heat to 65 degrees C for 3 hours	Minimum temperature, AND	65 degrees C
		Minimum time at minimum temperature	3 hours
	Irradiation	Minimum irradiation	2.5 megarads or by gamma rays
	pH altering	pH, AND	5
		Minimum time at pH of 5	2 hours
	Heat to 90 degrees C	Minimum internal temperature	90 degrees C
<b><u>Avian or Porcine Blood or Blood Fractions</u></b>			
<b>Processing method (check one of the below)</b>			<b>Critical limits</b>
	Heat to 65 degrees C for 3 hours	Minimum temperature, AND	65 degrees C
		Minimum time at minimum temperature	3 hours
	Irradiation	Minimum irradiation	2.5 megarads or by gamma rays
	Heat to 90 degrees C	Minimum internal temperature	90 degrees C

**The above referenced self-inspection program specifies that material will be safety-tested for the disease agent of concern after the treatment.**
