

1	[Title Screen] Operations Security (OPSEC)	Music
2		Most of us go about our daily work without access to any
3		sensitive or classified information.
4		However, our adversaries may still be interested in the information in your workplace.

5		An Al Qaeda terrorist handbook highlighted the fact that Al Qaeda could get
6		80 percent of the information they needed from public sources.
7		They were seeking information about things such as:

8	 A photograph of a subway train, likely an E train, stopped at a station platform. The train is silver and black with a red 'E' logo on the front. The platform has yellow tactile paving along the edge. A 'Thinkstock' watermark is visible in the center of the image.	transportation systems,
9	 A photograph showing several rolls of blueprints and maps spread out on a table. A black pen and a green pen are lying on the maps. A 'Thinkstock' watermark is visible in the center of the image.	city and town plans,
10	 A photograph of a busy city street with many pedestrians walking. The people are in motion, and the background shows modern buildings. A 'Thinkstock' watermark is visible in the center of the image.	pedestrian centers,
11	 A photograph of a police station building. The word 'POLICE' is written in large, gold, 3D letters above the entrance. The building has a modern design with glass windows and white columns. A 'Thinkstock' watermark is visible in the center of the image.	security organizations,

12	 A photograph of the United States flag flying on a tall pole in front of a grand, classical government building with columns. The building has the words "NEED STATE" visible on its facade. A "Thinkstock" watermark is present.	and government agencies.
	 A photograph showing the silhouette of a large steel truss bridge against a bright sunset sky. The sun is low on the horizon, creating a warm glow. A "Thinkstock" watermark is present.	By gathering this knowledge,
13	 A photograph of a large, intense explosion occurring on a bridge over a body of water. The explosion is a massive fireball of orange and red, with thick black smoke rising. The bridge structure is visible in the foreground. A "Thinkstock" watermark is present.	Al Qaeda believed they could use the information in potential attacks.
14	 A photograph of four business professionals (three men and one woman) sitting around a table in a meeting. They are looking at documents and a tablet. A "Thinkstock" watermark is present.	Operations security is the process through which we work to deny our adversaries

15		access to this critical information
16		and protect our sensitive activities and operations.
17		This course will provide you with an understanding of operations security
18		and key actions you can take to protect our country.
