

Google Search Training!

Effectively Discover Business Critical Information!

Have you ever looked for something for so long that you “Googled till you gave up?” Did you know Google has 15 filters and operators that enable you to easily find business critical information? AgLearn's courses from Boost eLearning will help you develop the skills to use Google's full functionality to save time and get better results. You will be able to effectively and efficiently find information to solve any research challenge you are facing.

The AgLearn Google resources from Boost eLearning include three online courses: *Skills Development*, *Skills Review*, and *Skills Application*. This training meets the needs of all learners, both the novice who has only used simple searches in the past, and the more experienced user who needs to broaden his or her awareness of the advanced features within Google.

+ [Google Skills Development Course](#)

These Lessons are skills-based for the training participant who wants to learn the key search techniques as quickly as possible. 15 Lessons, 3-5 Minutes per lesson, 1 hour.

+ [Google Skills Review Course](#)

The Skills Review lessons are the ultimate performance support tool. 15 Demonstrations, 15 minutes, the Skills Review quickly reminds you how to effectively use Google's filters and operators to find high value information.

+ [Google Skills Application Course](#)

Five demonstrations on how to combine multiple filters and operators to target your results and find high value information.

As with all AgLearn resources, these are available to all USDA employees at no cost to you!
