In this talk, Erin Meyer offers a highly practical and timely perspective on one of today's most pressing business issues: how do different cultures influence the way to do business when working globally? Even those who are culturally informed, travel extensively, and have lived abroad often have few strategies for dealing with the cross-cultural complexity that affects their team's day-to-day effectiveness.

As today's business world becomes ever-more global and virtual, executives and managers are expected to work harmoniously together with counterparts from a broad array of cultures and backgrounds, often without leaving their desks. This can make for interesting, even sometimes funny experiences, but can also lead to misunderstanding and confusion.

Meyer provides a new way forward with vital insights for working effectively and sensitively with one's counterparts in the new global marketplace.

You will learn:

- To build a more cohesive and successful team: one that will work together to bridge gaps, transform differences into assets, and ultimately grow your business.

- How to analyze the positioning of one culture relative to another. In doing so, the dimensions enable you to decode how culture influences your own international collaboration.
