

## USDA Connect AgLearn+!

AgLearn's USDA Connect Page is a valuable resource for all things AgLearn!

USDA Connect provides an online collaboration resource for employees across the agency. Team AgLearn is using this technology and its own AgLearn + page to bring you up-to-date and useful information. You may have noticed that Team AgLearn has boosted its communications presence. In addition to the weekly emails, we have implemented new communications activities that we hope will encourage you to use AgLearn for more than just courses.

AgLearn postings on USDA Connect provide information about various courses and books in AgLearn. In addition, best practices and “how to” job aids will show employees how to make the best use of AgLearn resources.

We encourage you to visit the AgLearn+ page weekly for the latest news and information!
