

Notarized Blood Source Verification Form for Exporters

This serves to inform officials of the United States Department of Agriculture's Animal and Plant Health Inspection Service that Vampira's Yummy Delights (Plant's name), located at 6656 Dracula Betta Diet Lane, Cluckadoo, PA 55555

(Plant's street address, including City, State, and Zip Code) only produces the blood origin materials destined for export to the European Union derived from the following materials from the following suppliers: (check all that apply)

**A.** The following materials **which will NOT be exported directly to the EU (derivatives of these materials will only be supplied to US facilities for production of products, e.g. pet foods, which may then be exported to the EU):** Blood from **non-ruminants** who passed ante-mortem inspection at the following Food Safety and Inspection Service (FSIS)-approved or State-approved slaughter plants: (*attach list if necessary*):

Chicken blood- ClucK-R-Us, Inc., 5000 Dracula Betta Diet Lane, Cluckadoo, PA 5555, FSIS plant # 5555555P

Pig blood- Porker's Big-Uns, Co., 4800 River Road, Porkdale, MD, 44444, MD State Dept of Agriculture # 3434

**B. Blood that has been found fit for human consumption** (generally blood bearing the FSIS mark of inspection) at the following Food Safety and Inspection Service (FSIS)-approved or State-approved slaughter plants: (*attach list if necessary*):

**C. Blood of slaughtered animals, which was not approved as fit for human consumption but is not affected by any signs of diseases communicable to humans or animals, and was derived from carcasses that were found fit for human consumption** at the following Food Safety and Inspection Service (FSIS)-approved or State-approved slaughter plants (*attach list if necessary*): (**For each supplier cited, a "Notarized Verification of Collection from Post-Mortem Passed Carcasses Form" must be attached.**)

Bovine blood- McDoogles, 500 Kidding Lane, Lancoostle, PA, 55553, FSIS Plant # 456565

Further, if item C is selected above, I am attaching a "Notarized Verification of Collection from Post-Mortem Passed Carcasses Form" from each supplier listed in section C.

This notarized form further certifies that these eligible materials are isolated from any ineligible materials at all times at our facility.

I certify that the statements listed above are true to the best of my knowledge and belief.

This form verifies that the facility notified above has in place a protocol to ensure that blood collected from only those animals whose carcasses were passed by FSIS or State Department of Agriculture inspectors as "fit for human consumption" are supplied to [insert name of inedible blood facility seeking APHIS approval]:

Vampira's Yummy Delights. This protocol ensures the separation of this blood from the blood of animals whose carcasses did NOT necessarily past post-mortem inspection through the following means: [Insert a brief description- if an attachment is cited, it should be only one page, and must be notarized.]

Bovine blood that is supplied to Vampira's Yummy Delights is collected from cattle at slaughter into individual collection vessels. These vessels are cleaned prior to use, and receive a unique number, and are covered after collection. The number is linked to the source animal until the final disposition of the carcass is known. If the carcass is passed for human consumption, with no signs identified of any disease communicable to humans or animals, the blood is then pooled into a special collection container reserved for blood destined for Vampira's. The container is then cleaned prior to re-use.

I certify that the statements listed above are true to the best of my knowledge and belief.
