

Notes

Printing a Completion Certificate – Modify Browser HTTP Settings

Printing a completion certificate is an easy task, but occasionally users indicate they do not see the certificate in their browser to be able to print it. This may be due to browser settings.

This job aid will show you how to modify the HTTP settings in Internet Explorer.

Note: Some USDA programs require that only one HTTP setting be checked. Therefore, the user may need to reset these settings after the certificate has printed.

Step	Activity	View
1.	Launch Internet Explorer .	
2.	From the Tools menu, select Internet Options .	
3.	Click the Advanced tab.	
4.	Scroll down to HTTP1.1 settings .	
5.	Ensure that both checkboxes are checked as shown.	
6.	Click Apply .	
7.	Click OK .	
8.	Click the Refresh button on the Internet Explorer toolbar.	
9.	Log back into AgLearn and print your completion certificate.
