

## Updating Your AgLearn Talent Profile

Many functions within AgLearn such as notifications and approvals cannot operate properly without specific identification data about you. AgLearn must have your email address as well as your current supervisor's name properly recorded in order to send you email and to approve your training requests. The following procedure illustrates how to select your current supervisor and how to enter or update your email address in AgLearn.

Step	Activity	View
------	----------	------

- From the AgLearn Home Page, click your name to enter the Talent Profile area.

- In the upper right corner of the Contact Information section, click the **Edit** icon to edit or add contact information, such as your email address.

- In the Email Address field, enter the email address where you would like to receive your AgLearn notifications (IDP approvals, SF-182 approvals, training notices, etc), and then click **Save**.

**Note:** Do not attempt to update any address data here. Data entered here may be overwritten by the nightly HR feed. If a permanent change is required, please contact your HR representative.
