

Example Conservation Effects Worksheet

Benchmark Condition	Desired Future Conditions - Client Objectives (DFC)	Quality Criteria (QC)	Alternative Effects	Impacts (changes)	Meet or does not meet DFC and QC
10 T/Ac/yr Sheet & Rill Erosion	4	5	2	-8	Meets DFC Meets QC
30 % Ground Cover	60	80	70	+40	Meets DFC Does not meet QC
10 Parts per Billion in Lake	1	3	2	-8	Does not meet DFC Meets QC

This worksheet can be used to relate Alternative Effects to Benchmark Conditions, Desired Future Conditions, Quality Criteria, and Alternative Effects in order to determine the impacts and whether or not the proposed alternative meets the desired future conditions and quality criteria.
