

The **Comparison** feature compares obligated and active loans in the portfolio. It allows the user to compare the same or different industries across Counties within the same or different States to determine which industry in a given location creates more GDP.

COMPARISON

The **Comparison** page appears.

1. To start a new **Comparison**, click the **Add New** button.
2. Type in a **Description** of your project.
3. Select a **Program**.
4. Next, enter the **State** and **Counties** you would like to search.

Note: You can select more than one County by holding down the **Ctrl** key while making a selection.

5. Next, narrow your search by **NAICS Code**.
6. To enter a **NAICS Code**, click on the word **All**. Then type the **NAICS Code** or **Industry Name**.
7. Last, click on the **NAICS Code** you want to use.

The **Data Entry** screen allows you to Save, Delete, or Cancel the SEBAS request. Selecting Save will transfer you to the **SEBAS Data Output** screen.

8. Click the **Save** button.

The **Comparison** search results page appears listing the search at the top of the screen and showing a corresponding **Graph** at the bottom.

John Doe	B&I	All CA	721110	39	\$149,917,580	910	118	103	118	\$7,437,000	\$63,000	\$0.05	\$994,000	ACTION ▾
----------	-----	--------	--------	----	---------------	-----	-----	-----	-----	-------------	----------	--------	-----------	----------

Note: It is important to enter a description that is meaningful to you so that you can easily identify the search at a later date.

The search you just entered is listed.

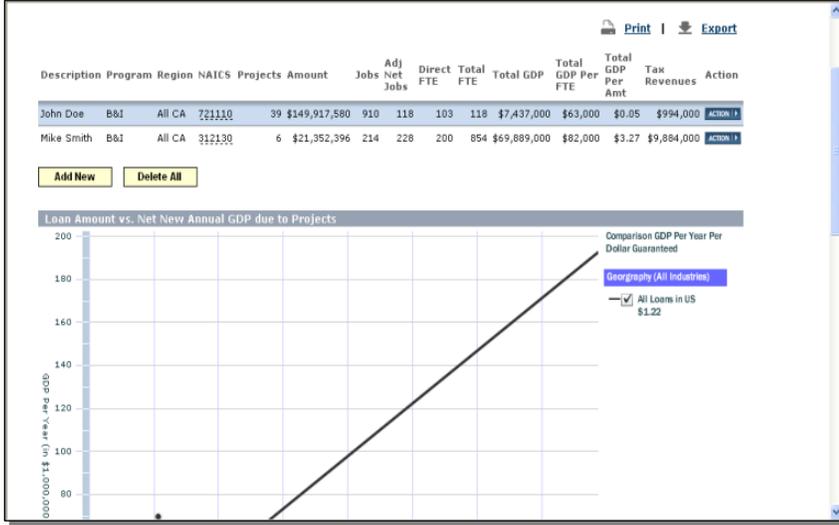

9. To do a **Comparison** you must click the **Add New** button and conduct another search.

The system will remember your last **Comparison** listing if delete all is not selected.

The same search fields must be completed to conduct a second search for **Comparison**.

Note: The results of your search provide you with valuable information.

The performance measures of each **NAICS Code** are listed at the top of the screen while the **Comparison** is shown on the Graph found below the data.

The line on the **Graph** shows the average of all loans in the U.S. for all industries.

10. To remove a line on the **Graph**, remove the checkmark next to the line description.

The **Graph** displays the projected GDP per year per dollar guaranteed.

When you click on each dot, a pop-up appears listing specific information for that industry.

Further down the screen, the **Statewide FTE Impact by Loan Chart** displays the breakdown between **Direct FTE** and **Indirect FTE** for each project identified in the **SEBAS Data Output Report**.
