

# Joint Ventures in Training

Leveraging the Cost of Design and  
Development of Online Training

Define the type of facilitation provided by AgLearn to foster development of courses that leverage costs across agencies.

Help Us Help You!

- How can we:
  - Prioritize joint ventures?
  - Leverage existing courses across other agencies?
  - Share development costs?
  - Allocate costs fairly?
  - Is this currently being done? Is it working?

- New Employee Orientation
- Performance Management
- “Government-ize” a SkillSoft course
- Training needs too costly to meet alone
- Audience size too small for online development
- Audience too distributed to train with traditional methods
- Design and develop from scratch, defining common baseline knowledge with agency enhancements and modifications
- ??????????

- Is this a valid initiative?
- Define the process
  - Cost algorithm – agency size? Who decides?
  - Identify common areas
    - Pain points
    - High interest areas
- Put into action
  - Initial pilot group(s)
  - Prioritize areas for future exploration
