FEATURED ARTICLE

Welcome to FY 2023!

The AgLearn team welcomes you all to this new fiscal year. As always, our mission is to be your one-stop hub for thousands of resources that support your mandatory training as well as your professional and personal development.

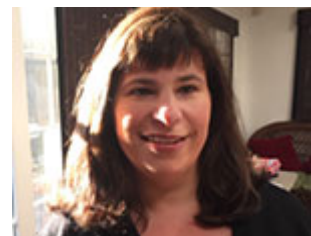

QUICK RECAP

This past year, with the roll-out of Version 14, AgLearn has added a wealth of new features to better support leads, admins, and all end users in their learning and training journeys. We've added features like playlists, improved SF-182 tracking, usability enhancements, and an all-new look and feel. We also prioritized engaging and relevant site content and began curating partner resources from LinkedIn Learning and Skillsoft-Percipio. Topics range from the new Juneteenth Holiday to month-long events like Hispanic Heritage Month and Cybersecurity Awareness Month.

WHAT'S COMING?

During this upcoming year, we look forward to continuing our service to all USDA employees, partner offices and agency users with our roll-out of exciting new tools. These tools include the 360-Assessment tool, AgLearn specific MS Teams app, and deeper integration between AgLearn and Skillsoft-Percipio's platform that will allow users to access and mark complete Percipio content directly from AgLearn.

The AgLearn team wants to thank you for your dedication and service, and sincerely hope that we can help support both your work and your mission area's important goals this upcoming fiscal year!
